

Introduction to Cyber Security: Ethical Hacking (CIS 76)
Student Survey and Agreement
(please download and complete)

Student Information

- Preferred first name: _____ Last name: _____
- Date: _____ Email address: _____
- Grading choice: pass/no-pass grade
(choose one, you may change your mind later and resubmit this survey)
- Previous computer, network, security related classes and/or experience:

Study Groups

Students often like to work together on assignments and prepare for tests. However, you may not know anyone else in the class to work with.

- Would you like to participate in a CIS 76 study group? yes no
- If so:
 - Would you like to participate: face-to-face online either way
 - Would you like the instructor to help place you in a study group with other interested classmates? yes no

Course Objectives

- What are you hoping to learn in this class?

- Other comments or special learning needs?

Agreement

Unauthorized hacking is a crime. I have read and understand the admonition in the syllabus. I agree to only use the hacking skills learned in this course with explicit authorization in a legal and ethical manner.
